REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Per claims 1-20 and 22-34, the examiner is persuaded by the remarks presented by applicant on November 21, 2003. As applicant admits, it is known to recirculate at least a portion of the fluid in the apparatus or method, however, it appears to be novel to recirculate a substantial unit volume of the fluid in the apparatus or method. Accordingly, an apparatus or method which fails to recirculate a substantial unit volume of fluid falls outside the scope of the instant invention.

Per claim 35, while it known in the art to provide a cleaner with an impeller for fluid flow, a motor for powering said impeller; a toroidal vortex nozzle, the nozzle coupled to the impeller, a centrifugal separation chamber, a collector for storing matter, in the examiner's opinion, the prior art fails to teach or fairly suggest the cleaner further including wheels and straightening vanes.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
